

IMANE BELAID

Frontend web Developer

+213 671147408 • belaidimane@gmail.com • [Linkedin](#) • [Github](#) • [Portfolio](#)

Summary

Passionate Front-End Developer with a background in Computer Science and fresh graduated from a web development bootcamp. Draws on skills from previous roles as an administrative assistant and French teacher. Committed to continuous learning and sharing knowledge in tech industry.

Skills

Technologies: HTML/CSS – JavaScript -React.js • Next.js • TailWind • Bootstrap

Soft skills: Efficient communication Time management • Problem solving • Adaptability/Flexibility • Continuous learning • Analytical thinking

Experience

Re:Coded

Frontend Developer

06/2023 - 12/2023

Re:Coded help unemployed and underserved talent to reskill and build sustainable careers in the digital economy.

- I collaboratively developed responsive web applications, such as [Madaura](#), [DzExpress](#), [Cinepholie](#), and [SoftLib](#), applying both technical and soft skills acquired during the bootcamp.

SARL YOTTA

ODOO Functional Support

06/2022 - 12/2022

YOTTA offers comprehensive services for datacenter projects, including audits, operations, construction, and certifications. Their experts manage every phase for top-notch results.

- Training a cross-functional team of 3-5 resources on Odoo functionalities.
- Full support for Odoo integration with the assistance of the integrator.
- Ensuring a smooth transition to the new system and supporting users in the transitional phase.

ADMINISTRATIVE ASSISTANT

09/2018 - 12/2022

- Proficient administrative assistant adept at crafting technical and commercial documents, managing files for quick access, and facilitating seamless collaboration for enhanced efficiency.

Internship Experience UK 2022: On Demand – Technology

Technology Intern - Remote

06/2022 - 07/2022

Bright Network helps the world's best companies find the talent they need to grow their businesses faster and give the brightest graduates access to the best possible career opportunities.

- Engaged in the AWS Amazon Coding Challenge, a project that involved devising an optimal pathfinding algorithm (A* algorithm) for Amazon's autonomous delivery vehicles. Leveraged Python, along with the NumPy library, to develop the solution.

Education

Re:Coded

Front-End Development

06/2023 - 12/2023

- Successfully completed a 5-month immersive coding bootcamp encompassing over 400 hours, achieving mastery in the most relevant technologies nowadays, such as JavaScript, ReactJS, Next.js, HTML/CSS, Tailwind CSS, Bootstrap, and Git.

Ziane Achour University

Bachelor's Degree of Computer Science

09/2012 - 06/2015

- Programming Proficiency: Mastered multiple languages, delving into algorithms and data structures for problem-solving.
- System Foundations: Grasped computer architecture, operating systems, and networking for a holistic view of computing systems.
- Database Management: Proficient in designing and handling databases, including SQL querying and data manipulation.
- Software Engineering Practices: Acquired development methodologies, testing techniques, and project management for efficient software production.
- Mathematical Foundations: Strong understanding of Calculus, Algebra, Probability, and Statistics.

Volunteering

StarTech Club

Coordinator member

StarTech is a newly created club aiming to introduce kids to coding and learning cutting edge technologies.

MNClub

Co-Leader membership

The core focus of MNClub centered on empowering women in the realms of business and leadership.

French teacher

I volunteered in French teaching since 2016, where I taught 60+ people from different ages (4-50+ years old) among 3 different associations and clubs.
